

---

On the whole, these definitions are not accurate for the understanding of higher order properties of the Missa Major, which, in terms of its further orders of reality does not refer to the three-dimensional world in passing time, but to an order of existence belonging to what might be called "higher space". *Æon* is not time, nor is it *time itself* but a kind of overshadowing Totality that comprehends *All* in itself. In the New Testament, God is said to have created the *æons* and He has been called King of the *Æons*.
